## Should there be gun laws in the USA?

**INTRODUCTION:** 1 phrase ou 2 qui introduisent le thème

Should there be gun laws in the USA? It's an excellent question <sup>①</sup> which I will explain in two parts.

Essai  
d'être plus discrète  
" Every day in the USA  
people are killed much more  
than in France. That's why some  
people think we should ban guns  
while others don't agree.

**1st PART :** FOR (ou AGAINST)

People who are against guns explain first that

Tout d'abord, First, I will start with the arguments for gun laws. Guns are rarely used in self defense.

To defend <sup>(oneself)</sup> himself is their first function, but often they aren't use <sup>to do</sup> to it, they are more used by criminals to kill innocents people.

Ensuite, Then, enacting gun control laws such as mandatory safety features would reduce the number of

accidental gun deaths. It's an argument for gun laws because, according to the people who are

for, if there are fewer guns, it means there will have <sup>be</sup> fewer accident with guns.

For example when kids find a gun and kill a friend by accident while he just wanted to play.

(Enfin, ...) Finally, countries with restrictive gun control laws have lower gun homicide and suicide rates than

the United States. There are fewer deaths because of guns in the country with gun laws, than the

USA which is a country without gun laws. As a consequence, suicidal people are less

likely to find a gun and kill themselves.

**TRANSITION** : Mais.../ cependant) / néanmoins

However, there aren't only arguments for gun laws, also there are arguments against it.

**2nd PART** : AGAINST (ou FOR selon votre 1ère partie)

En 1<sup>er</sup>, ..... To begin with the arguments against gun laws. I will start with gun control laws will not prevent  
criminals from obtaining guns. If a criminal want a gun he will ~~arrive~~ manage to have it with or without laws.

En outre, Besides, gun control laws such as background checks and micro- stamping are an invasion of  
privacy. Have a gun is something personal, everybody don't need to know who have a gun.

(En dernier, ...). Last but not least, more gun control is not needed; education about guns and gun safety is  
needed to prevent accidental gun deaths. Children have already learnt how to use a gun,  
so it's not dangerous. Moreover gun are safety, there should'nt have accident.  
THEN (alors) IF so be

**CONCLUSION:**

Pour conclure, je pense / je crois.....

To conclude, there are arguments for and against gun laws but I think it's better when there are laws for guns  
because it's less dangerous.

Bon respect de la structure avec une bonne utilisation  
des mots de liaison. Il faut maintenant enlever certaines  
expressions (ex: I will talk about...) et autant que possible  
développer, expliquer, donner des exemples, des  
statistiques.  
Good job !
