Barème :

Pertinence : j'ai bien respecté le sujet et ai traité le sujet de manière détaillée / 5

Richesse Lexicale : j'ai réutilisé le vocabulaire du cours et ai ajouté de mes connaissances personnelles, en cherchant à varier / 7

et Grammaticale : j'ai fait attention aux règles de base ; j'ai fait simple mais correct ; ou plus complexe mais toujours en respectant les règles de base / 8

BAREME

	● A1	● A2	● A2+	● B1
Pertinence, originalité et complexité de mes arguments				
Richesse de mon vocabulaire				
Complexité, variété, précision grammaticale				
Bilan Ecrire / Raconter, décrire (n°15)				

You need to make a point on the pros and cons on an American topic in Meysac's next American cultural conference. Write your essay, respecting the classical structure and using link words.

(Tu as besoin de faire le point sur les pour et contre d'un sujet américain en vue de la prochaine conférence meysacoise sur la culture américaine)

POSSIBLE TOPICS

- Gun laws in the USA : Should there be gun laws in the USA
- Abortion : should it be allowed ?
- Trump President : should Trump be the next president of the USA ?
- Mister Roy fired : should we fire our English teacher ?

Should abortion be allowed? About three billion pupils abort every years. Is it good or bad? We're gonna see that.

First I start with the arguments for abortion. If you abort because you are not ready or you are too young, after you can have a second choice when you are ready.

Then it limit the number of adopted babies. When the mum can't abort because it's too late, after about 75% of these babies are abandoned. So they live for fifty pourcentage in an orphanage. Their life are a little bit sad because they don't know their parents and the life in the orphanage is not very good.

Finally, if it were forbidden, some woman will do it illegally. For example, in Africa, only four countries allowed abortion. In the other it's forbidden so the woman abort illegally. If they don't abort, when the baby born, he is abandon or kill. Even if the mother didn't use abortion, after the baby die. So, I think, it's better to do abortion in healthy ways.

These are arguments for abortion but there are also arguments against it.

To begin with the arguments against abortion, for me abortion is like kill a baby. Every day, five hundred fifty abortion are practice (without the number of illegally abortion) so every day we kill *five hundred fifty babies. It's horrible!

Besides, you have to assume your choices. If you made love without protection, it's about your responsibilities. You should have protected yourself. Last but not least, abortion is very hard to live after for many people: the family and the parents. You think at this baby that you could have but that you don't have. The life is sad.

To conclude, I'm for abortion because it help people when it's an error or others reasons. But I'm a little bit against because after it's too hard for the family to live.
