

Poules, renards et vipères

Augustin

Pauline N.

$5 \times 16 = 80$

80 souris ont été mangées en tout.

The diagrams illustrate the consumption of mice by foxes. On the left, a fox is shown with five children, each represented by a small brown square. Each child is eating a group of 16 mice, represented by small green figures with long tails. On the right, a fox is shown with four children, each represented by a small brown square. Each child is eating a group of 20 mice, represented by small green figures with long tails.

Dans mon portemonnaie

Isoua et Juliette

$20 + 10 + 10 + 10 + 10 + 10 + 10 = 80$

$20 + 20 + 10 + 10 + 10 + 10 + 10 = 90$

$20 + 20 + 20 + 10 + 10 + 10 + 10 = 100$

J'ai 3 billets de 20€ et 4 billets de 10€.
